

WANTS HAVEMEYER BROUGHT INTO IT

SENATOR TILLMAN MAKES A SENSATIONAL SPEECH.

He Thinks the Investigation Should Reach Higher Men Than Chapman—Preliminary Tariff Debate—Proceedings in the House—Post Office Receipts—General Capitol News.

Washington, May 14.—After a long period of calm the senate was considerably agitated Thursday, first by a discussion of the senate sugar investigation and then by a preliminary skirmish on the tariff bill. The Allen resolution to bring Elvertson R. Chapman before the bar of the senate was debated in a somewhat monotonous style until Mr. Tillman (S. C.) gave a present interest to the subject by referring to reports that senators within the last week had speculated in sugar stock.

"As the representatives of 70,000,000 people," said Mr. Allen, in opening the discussion, "we cannot afford to permit Mr. Chapman, the representative of a powerful organization, which it has been charged exercises great influence over this body, to go unwhipped."

The discussion assumed a legal and technical phase, Messrs. Faulkner (W. Va.), White (Cal.) and Spooner (Wis.) arguing on the law applying to Chapman.

Mr. Chandler spoke briefly, saying that he could not believe a pardon would be granted Chapman. The senator stated that he considered it would be futile to undertake now to reopen the sugar investigation of four years ago.

Mr. Tillman was recognized for a speech which caused a distinct sensation on the floor and in the galleries. He said:

"It seems to me that we are not after Chapman; the original investigation was not intended to punish Chapman, but to discover whether any senator on this floor had been guilty of using his official position to make money by speculating in stocks which were influenced by his action, as a senator, on the committee which reported the tariff bill. It is not worth while to try to cover up this matter with badinage and flippancy. There are to-day in the newspapers of this country charges floating about and being sent broadcast, signed by correspondents in the gallery, to the effect that last week, when the new tariff bill was reported with a change in the sugar schedule, three senators had speculated in sugar stock. We have another stench on our hands, and instead of it being a differential in favor of the trust of a third of a cent that was, it is now two-thirds in favor of the trust."

"There are two correspondents who have, over their own signatures, charged that senators have speculated within the last week and made money. Now, if you want to investigate, you have a new reason to investigate. We do not want Chapman. We want Havemeyer. We want the man who bought your men, if they were bought. That is what we are here for; and now let the senator who has moved to refer the matter, and who loves the dignity of the senate as much as any other man, take the resolution to his committee and bring back a measure here that will mean something. Either investigate so as to find the truth and punish the criminal or hush."

As Mr. Tillman closed there was no applause, but for a moment there was a stir in the galleries which promised something of a demonstration. The debate promptly proceeded, however, again branching into legal channels, Messrs. Hoar, Chandler and Allen taking part. The resolution was referred to the committee on judiciary.

A tariff discussion was unexpectedly precipitated when Mr. Aldrich (Rep., R. I.), of the finance committee, stated that he would modify the announcement previously given as to taking up the tariff bill May 18, owing to unavoidable delay in preparing the comparative statement. He hoped to call it up on Thursday at least for a preliminary statement. In any event the bill would be taken up on the following Monday.

The discussion finally settled down to an argument as to the effects of a wool duty, in which Messrs. Lindsay, Gallinger, Aldrich and Hoar participated.

The conference report, which establishes an Indian warehouse at Omaha, ratifies the lease of the Seneca oil lands, and adds one judge to the Indian Territory courts, was adopted by a vote of 54 to 47.

Mr. Simpson (Pop., Kas.) endeavored to renew his attack upon the Speaker for failing to appoint committees, when Mr. Payne (Rep., N. Y.) called him to order. The House finally decided that Mr. Simpson could not speak. At 3:18 the House adjourned until Monday.

PEACE PLANS BALK; NO ARMISTICE YET

TURKEY'S RULER IN NO HURRY TO ACT.

Foreign Ambassadors Renew Their Proposal Without Effect—Sultan Realizes His Military Strength—Orders Sent Edhem Pasha to Continue to Advance.

Constantinople, May 14.—The foreign ambassadors held another conference Thursday, after which Baron de Calice, the Austro-Hungarian ambassador, called upon Tewfik Pasha, the Turkish minister of foreign affairs, and renewed the proposal of an armistice. The opinion is general in Turkish circles that until the occupation of Domokos, which is momentarily expected, the porte will not grant an armistice.

The sultan's position is a little stronger than King George's, and, therefore, it is not surprising that, while the war feeling is so strong, he hesitates at taking a step which could be construed as a surrender of Ottoman interests. In addition to this, the fact that the feast of Bairam begins today, lasting until Sunday, offers another excuse for delay.

The powers are in no mood to yield overmuch to the demands of Turkey. The war has had quite an unexpected effect in revealing an amazing military vitality in the sultan's dominions, which is not pleasing to Russia or the other powers. Hence the sultan will be reminded that it was his original misgovernment which led to the war; that only the influence of Europe has prevented a general blaze in the Balkans and that it is, therefore, advisable for him to adopt reasonable terms.

The activity of Turkish military preparations, which is no way abated by the diplomatic negotiations, may possibly be explained by the following statement of a high Turkish official: "The Russians are putting a high price upon the moral support they extended to us during the Armenian trouble; but the demands now made upon us are so exorbitant that their acceptance would be tantamount to resigning our title as a free nation."

Turks Ordered to Advance.

London, May 14.—The correspondent of the Standard at Constantinople says: "Edhem Pasha has wired to the porte that he is quite certain of being able to capture Domokos and the Greek army as well; and in response pressing orders have been sent to the Turkish staff to go ahead with the greatest energy, regardless of diplomacy. General military operations continue here on the largest scale."

The cargo was somewhat damaged but the leak was discovered in time to save the ship.

TO URGE AID FOR PATRIOTS

President Will Send Congress a Speech Message on Cuban Affairs.

Washington, May 14.—The Cuban question has taken a sudden and a serious turn.

Reports are being sent from the capital predicting recognition of belligerency within forty-eight hours. The situation is not as bad as that. President McKinley will, however, send a special message to congress on Monday.

It will not be a sensational message, though it will be appalling in its disclosures of intense suffering and destitution of Americans on the island.

No new policy regarding recognition of the Cubans will be announced. The message will be devoted solely to outlining the deplorable state of affairs in Cuba, the suffering and hunger of American citizens, and the urgent need of their immediate relief. It will recommend an appropriation of money by congress for their aid, it is believed, about \$50,000, for the purpose of sending clothing, food and other supplies to Americans who are officially reported to be in a starving and deplorable condition.

HE AIMS TO STRANGLE WOMEN

New York Police on the Trail of a Band of Murderers.

New York, May 14.—The police believe they are on the trail of the stranglers of a great city, who for two years have been selecting victims, women of a certain class. The capture of Henry Weiss and James Fitzsimmons shortly after midnight Thursday is considered most important, for, strange coincidence, the men, who confess that they attempted to etherize and rob Fanny Vogel, were freed from jail on the night that "Diamond Flossie Murphy" was strangled to death, April 21. Moreover, in a confession made, these men admit that they were linked together to prey upon unfortunate women, believing, as they said, that the police would close their eyes to the tragic removal of this class.

DURANT DID NOT KILL THE WOMEN

Convict Makes Confession Clearing Him.

PRISONER AT SAN QUENTIN PENITENTIARY OWNS UP.

Says That He Killed the Two Girls in the Church and Was Paid Seven Hundred Dollars For the Job—Durant Was Under Sentence to be Hanged—Affidavit of Confession Filed With Application For a Pardon—Story is Believed.

San Francisco, Cal., May 14.—This city was treated to a genuine sensation this morning, when it was announced that John Rosenberg, a convict at the San Quentin prison had confessed to the murders in the church some time ago, for which Theodore Durant has been sentenced to be hanged.

The affidavit was filed with the governor today, along with the application for pardon in behalf of Durant.

Roseberg says he got \$700 for committing the crimes.

The confession has naturally created a tremendous sensation, and it is generally believed to be true by the people.

The crime, it will be remembered, was the killing of two women, who were found butchered in a church. The evidence against Durant was a circumstantial, as no one saw the murders committed.

MEMORIAL DAY PLANS MADE.

Committees Met at the Council Chamber Last Evening.

Further arrangements for the Memorial day celebration were made at the meeting of citizens held at the council chamber last evening. The finance committee reported that \$176 had been raised, \$97.50 being secured on the West Side and \$78.50 on the East Side. A vote of thanks was given the committee. George H. Osgood was made treasurer of the fund. Secretary Fathers announced that he had invited all the civic and military societies to turn out, but only one had responded—Florence Camp Modern Woodmen. The Christ church Cadets would turn out, he said, although he had not been officially notified. The Light Infantry, and the Boys Brigade would probably be in line, he said. The suggestion had been made to Professor Mayne, that the male pupils of the public schools take part in the parade, and the committee seemed pleased with the idea. The Y. M. C. A. and Imperial bands, and the G. A. R. drum corps will furnish the music. All the wheelmen in this city are invited to take part in the parade. J. G. DeLong will be in charge of the cyclists. The treasurer was instructed to pay all orders when signed by the president and secretary. Dr. James Mills was made a member of the program committee in place of G. H. Osgood, who resigned. The fire department will turn out, it was announced, and on motion of C. D. Child an adjournment was taken until Saturday evening of next week, May 22, at 9 o'clock, at the council chamber.

The program committee will meet at Dr. James Mills' office, on Saturday evening, May 22, at 8:30 o'clock.

BUT LITTLE DOING IN LEAF

Tobacco Market Is Quietest Down Considerably This Week

The Janesville Leaf says: This has been one of the dullest weeks our market has experienced in several months, there being practically nothing doing, as compared with the exciting times of a few months ago. An occasional transaction of a small number of cases, is all that comes to our notice, many making but little attempt to do any business, preferring to not sell than accept prevailing prices. Among the sales reported are 45 cases sold by G. H. Rumrill; 32 cases sold by A. L. Fisher and 16 cases '96 sold by T. E. Welsh.

The young plants are coming on rapidly as the weather is extremely favorable, being warm and rainy, a shower falling nearly every day. If this weather continues for some weeks the plants will make up some of the time lost during the recent cold damp weather of April.

A. N. Jones shipped a car of tobacco this week.

George H. Rumrill shipped a car of tobacco this week.

S. B. Hedges transacted business in Clinton, Tuesday.

T. E. Welsh closed his assorting room Wednesday for a short time.

Mrs. Will Bauman assisted, the others who took part being:

Misses—

PEOPLE in many places about town are digging out dandelions from their lawns and throwing them into the street. This is a mistake. They mature the seed very quickly, and when thrown in the street small birds will even give wing to the seed. They blow right back on the lawn, or a neighbor's lawn. Burn the plants after cutting them; that is the only way to destroy them.

Notify Creditors That Claims Must be Filed by June 1.

The special commissioners appointed by the legislature to settle up the debts of the State Agricultural society must file them with the secretary of state on or before Tuesday, the first of June. The legislature after a long struggle, appropriated \$8,000 with which the debts of the society should be paid. Some of the officers of the society, however, particularly Secretary "Tom" Flemming, were not in favor among the legislators and there was considerable opposition to the bill based upon hostility to the officers. To meet this opposition the friends of the bill amended it so that the matter of settling up the society's debts was put in the hands of the secretary of state, the state treasurer and the attorney general.

This agitation lasted for several weeks and the natural outcome was a pretty thorough going over of the administration of the society and its management of the state fair. This informal investigation resulted in a bill which is now a law, taking the management of the state fair out of the hands of the society entirely and putting it under the control of the state board of agriculture, which was created for the purpose. This compromise having been effected, the two bills were put through together and the usefulness of the State Agricultural society is at an end, though the society still exists.

State Event Will be Held During July--Conference of Secretaries.

The state conference of the Wisconsin Y. M. C. A. secretaries continued in session yesterday at Milwaukee. The subject of membership was thoroughly discussed. It was thought by several that the joining of the Y. M. C. A. was made too much like a commercial transaction and that the good that one receives and the benefits he renders to others by becoming a member of the organization were not sufficiently emphasized. The publishing of a periodical pamphlet was advocated in order to explain all the workings and privileges of the Y. M. C. A.

The question of holding a state athletic meet was decided in the affirmative, the meeting to take place some time in July. All of the Y. M. C. A. branches in the state are to be represented, and it is intended to make the events a general wind-up for the work that has been done in the gymnasium during the winter season.

At the session yesterday afternoon it was decided to hold the state convention at Baraboo October 14-17. The Y. M. C. A. owns buildings at Milwaukee, Racine, Janesville, Wausau, La Crosse, Oshkosh, Waukegan, Baraboo, Kaukauna, Marinette, and at the state university, Madison. The property is valued at \$276,000, upon which there is a debt of \$56,421.

Traveling is Extra-Hazardous

If the tourist is unprovided with some medicinal resource. Changes of temperature, food and water of an unaccustomed or unwholesome quality, and a route that lies in the tropics or other regions where malaria exists, are each and all fraught with danger to one who has been imprudent enough to neglect a remedial safeguard. The concurrent testimony of many voyagers by land and establishes the fact that Hostetter's Stomach Bitters enables those who use it to encounter hazards of the nature referred to with impunity; and that, as a medicine adapted to sudden and unexpected exigencies, it is peculiarly valuable. Disorders of the liver, the bowels and the stomach, fever and ague, rheumatism and nervous ailments, brought on by exposure, are among the maladies to which emigrants, travelers and new settlers are most subject. These and others yield to the action of the Bitters promptly and completely.

THE "GROWN-UP" DAUGHTER'S DUTY TO HER MOTHER.

You can only have one mother; therefore, when her step is growing slow and her mind gloomy with forebodings, and you can see that her whole nervous system is upset, it is your filial duty and privilege to attend to her in time! Mother is approaching the most critical period of her life.

The change of life, that is what mother is dreading, and no wonder, for it is full of peril to all but the strongest women.

There are some special and very wearing symptoms from which mother suffers, but she will not speak of them to any one. Help her out; she doesn't know what to do for herself!

Shall I advise you? First, send to the nearest drug store and get a bottle of Lydia E. Pinkham's Vegetable Compound, and see that mother takes it

regularly, then write to Mrs. Pinkham, at Lynn, Mass., giving all the symptoms and you will receive a prompt reply telling mother what to do for herself. In the meantime the Vegetable Compound will make life much easier for her. It tones up the nervous system, invigorates the body, and the "blues" vanish before it as darkness flees from the sunlight. You can get it at any reliable druggist's.

Mrs. LOUIS STRONG, Harris Hill, Erie Co., N. Y., says: "I have been troubled with falling of the womb for years, was advised to take Lydia E. Pinkham's Vegetable Compound. I took thirteen bottles and received great benefit. When the time for change of life came I suffered a great deal with faintness and palpitation of the heart. I got one bottle of the Vegetable Compound and one of Blood Purifier and was relieved again. I was thereby enabled to pass through that serious period very comfortably."

A CIVIL SERVICE MISFIT.

It will be taken for granted, doubtless, that it is not the purpose of civil service rules to injure or destroy the efficiency of any department of the government. Yet those who are best informed concerning the work of the United States Corps of Engineers can see nothing but impairment in the order issued in the last year of Mr. Cleveland's administration, directing that all employees of the department above the grade of laborer be classified under one of eleven heads. The new order went into effect September 1 last, with a most unfortunate effect upon the operations of the engineers, who find their labors hampered and made more costly and their system confused by the effort to "reform" what was already in excellent running order. For a hundred years the department has been conducted without the loss of a cent from default, or the serious inroads of political spoilsmen. It is easy to imagine the dismay of the engineers, who with their high record for honesty and capacity, when called on to turn over the selection of their subordinates to marinet examining boards with no practical knowledge of the difficult duties involved.

The way the change works is reported to be simply paralyzing to all effectiveness. If a cook, fireman, mate, engineer, pilot or other classified employee, suddenly leaves a government boat engaged in delivering material to keep hundreds of men busy, no unclassified man can be employed to take his place. The vessel must be tied to the bank until the captain reports to the engineers, who advise the secretary of war. The secretary makes a requisition on the civil service commission, who send a list of eligibles for cooks, firemen, etc., from the first three of which a man must be selected for appointment by the secretary. If no eligibles are available there must be an advertisement and competitive examinations, after which the secretary acts, and the steamboat finally gets its reform cook from some distant part of the country. He may not know enough to boil an egg, but he is up in arithmetic and geography, and as a duly classified man he is a perfected product.

If his superiors deny it their grievances go to the civil service commission. All this involves delay and loss. The conclusion is irresistible that a thoroughly effective department of the government has been muddled in the name of civil service reform and that it may be destroyed unless the absurd sham is set aside.

SWINDLING PATENT ATTORNEYS.

Notwithstanding the hard times, there is no decrease in the number of patents granted to inventors, so called. Indeed, it appears that hard times stimulate invention, or the effort to make money in some magic and easy way. Those who prey upon the credulity of invention know this, and they are, especially at this time, inundating the rural districts with their roscate circulars promising sudden wealth in patents, and sending lists of "inventions wanted." There is no species of deceit that is more dishonest, heartless and hurtful, than these circulars of bogus patent attorneys and patent sale agencies, for they are luring tens of thousands of simple men and women from bread winning toil to a jack 'o lantern pursuit of fortune, sure to end in loss, if not in ruin. Many of them are selling farms, cows, homes, and actually stunting themselves in the common comforts of life in order that they may pay a patent attorney who has promised them a patent and wealth.

The attorney demands his fee in advance, and, once having it, "the subsequent proceedings trouble him no more."

The inventor rarely gets a patent, and, if he does get it, he will find that it is worthless. The rapacity of these attorneys is not satisfied with the first

fee. They "work" the inventor for all he is worth, and flatter him with glowing fictions about the value of his invention, and send him a medal, which they say has been awarded him by the board of experts. They assure the inventor that a fortune awaits him if he will only press his claims.

In this and other ways, the hapless inventor is further robbed. He sends ten or twenty dollars more to the dishonest attorney, or perhaps he may even send him several hundred dollars for European patents, not knowing that his invention is not patentable, or that if a patent is granted him, it will be so weak and flimsy as not to afford him protection, and that no one acquainted with the progress that has been made in this class of invention would have the patent as a gift.

There is a bill before congress to protect inventors against patent attorneys who award prizes and medals. It punishes the offense by heavy fine or imprisonment.

CHICAGO MARKETS BY WIRE

Chicago, May 14.—Receipts of wheat are the same as a week ago, and nearly all at Minneapolis and Duluth. The former city wires us as follows: "Receipts will continue large. I know of one elevator company that sold four hundred thousand bushels in Duluth yesterday, and they loaded 130 cars at country points. The elevator people will continue to sell their wheat as fast as they can move it, as they are getting a good premium for the cash on July, and there is no object in their holding."

I think wheat is well out of farmers' hands and country elevators' stocks are being rapidly depleted. The wheat market opened lower in sympathy with lower principal, rallied and finally broke on realizing by local bulls. Deliveries of May wheat were liberal and outsiders sold same and broke the premium from two cents down to one cent in the meantime. The premium in New York for cash wheat has widened to 9 cents over Chicago where it was a short time ago, and July in Minneapolis is one cent above Chicago. Not a bushel of wheat was received in Chicago yesterday, and only 4,000 today and we will get no wheat here till August. In every market there is a scarcity of cash wheat. In Minneapolis July is 8 1/2 cents above September and here the difference has widened to 5 cents, and will be larger. Everything confirms my predictions that there will be a scarcity of cash wheat, with no demand for next crop options. September here should be sold on every bulge, and should never be bought. May oats and May corn are very strong; it looks as though they were practically cornered. It is a most remarkable condition, with corn and oats theoretically so plenty that they have no value. Provisions have ruled easier in sympathy with wheat.

CATARRH OF THE STOMACH.

A Pleasant, Simple, But Safe and Effectual Cure for It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headaches, fickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

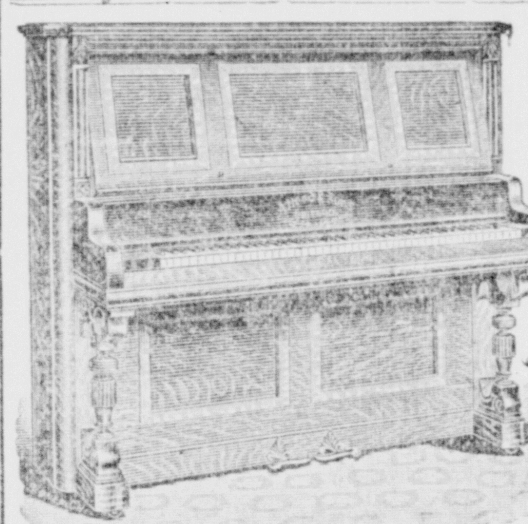

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanston the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux. Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Bocher, of 2710 Dearborn St., Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Send for little book, mailed free, on stomach troubles, by addressing Stuart Co., Marshall, Mich. The tablets can be found at all drug stores.

TO GO TO THE JURY THIS AFTERNOON

**TERRILL MURDER CASE IS
CLOSED.**

The Testimony Was All in This Afternoon and the Arguments Are Now Being Made—Defendant Tells About the Fight—Has Watched the Proceedings Closely.

In all probability the Terrill murder case will go to the jury late this afternoon, although possibly the twelve men may not retire until tomorrow morning.

The testimony taken this afternoon was given by the last shift of witnesses. It was shown that while Terrill was in jail after the killing, but before the trial, he had an opportunity to escape when a number of other prisoners broke jail, but refused to leave. Mrs. Collins, Terrill's sister, testified to seeing part of the fatal fight. Miss Bambrong, who worked for the Collins family, testified that Terrill came to the Collins home to get the revolver with which the killing was done. Several witnesses were placed on the stand to testify to the defendant's character, and to the wounds he had received during the fight. The attorneys for the defense then offered a transcript of the testimony at the former trial in evidence, and there was some legal sparring as to the admissibility of the evidence because of the wording of the court reporter's certificate to the correctness.

Terrill Testifies.

Defendant Terrill was on the stand today. He testified that he was afraid of Quirk, and told Quirk that he did not want to have any trouble with him, at the same time backing away. Terrill said he made no effort to strike Quirk. After Quirk had struck him, and while he was confused by the blow, Terrill said he drew the revolver and fired into the wall. This did not stop Quirk, so he continued to shoot, Quirk not loosing his hold until the fourth shot was fired.

The witnesses examined today were Anthony Quirkoff, John Frances, Florence Bambrong, Ida Phillips, Charley Collins, William Healy, Perry Quirk, Albert White, Aldro Jenks, Thomas Quirk, Stephen Tonkin, and the defendant, Terrill.

Attorney Jenks made the argument for the prosecution this afternoon.

Defendant Pays Close Attention

The defendant sat beside Turnkey Samuel Brown, and took a keen interest in the proceedings. He watched the witnesses narrowly, and did not miss a word of the testimony. He is a "stocky built" young man. His features are quite regular, and his profile clean cut. He was smooth shaven, and wore a business suit with standing white collar. He kept one hand up to his face a goodly portion of the time, and seemed to be quite nervous. Three years confinement at Waupun had an effect and his face had the pallor that always distinguishes the man who has lived under lock and key. He did not notice what was going on about him, but confined his attention to the proceedings of the court. That he realized the gravity of the situation was plainly apparent.

Mrs. Collins the defendant's sister, resembled him in appearance. She gave her testimony without agitation and seemed to remember very distinctly what she saw in one brief moment that she looked in on the scene of blood.

The audience today was as large as ever and many attorneys were interested listeners.

Letter is Received From Misses Jeffris and Echlin.

A letter has been received from Miss Julia Echlin and Miss Susie Jeffris announcing their safe arrival in Germany. Their trip across the ocean was a delightful one, and neither showed any signs of sea sickness. Their boat was obliged to run slow on account of icebergs, and for this reason it arrived in Antwerp a day late. They are now in Paris where they expect to remain several days.

ROEHL TOLD POLICE WHERE THE BOX LAY

KOESTERS GETS HIS VALUABLE PAPERS BACK.

Accused Man Led Chief Hogan to the Spot Where He Had Hidden the Receptacle Under a Sidewalk—Robinson Says He Was Drunk When He Robbed Erredge.

In charge of Chief Hogan, W. C. Roehl, who robbed Leopold Koesters, of the Germania Hotel, of \$90, yesterday went to the lot at 160 Chatham street, where he pointed out the place where he had hidden the stolen box which contained valuable papers beneath the sidewalk, with contents undisturbed, lay the box just as the prisoner put it on the night of the robbery, and before he struck off across the country to Stoughton.

Roehl told Officer Appleby, when they were coming up on the train, that Mrs. Koesters sat in the doorway when he went out with the box, and that the money was rattling about, making quite a noise, but that she did not notice that he had the box under his arm.

Robinson Pleads Drunkenness.

Arthur Robinson has admitted to George H. Erredge that he robbed his store, but he claims he was drunk at the time the crime was committed.

During an interview at the jail yesterday Robinson told Mr. Erredge that he only hoped the court would give him as light a sentence as possible.

This morning, Robinson's hearing in the municipal court was adjourned until tomorrow morning at 9 o'clock. He will doubtless throw himself on the mercy of the court.

The report that Pouch, the Waukesha murderer, had been seen, at the Pratt stone quarry last night caused a flurry of excitement, but the story was a canard and the party of wheelmen who hastened to the scene had to "pump" home in the rain.

Key To The Store Stolen Early This Morning.

At an early hour this morning burglars entered John E. Nolan's Park avenue residence and after ransacking the house made good their escape taking with them Mr. Nolan's trousers and a vest. They secured for their trouble a gold watch and chain and keys to the grocery store. The pants and vest were discovered this morning near the river at Monterey. The perpetrators of the deed are unknown. It is thought the robbers were after the store keys, intending to rob the safe.

It Makes a Great Difference

In a man's appearance whether or not the suit he wears was a cheap, poorly-made one in the first place or whether he wears a well-fitting, well-made suit. It grows more noticeable with each week's wear.

There is satisfaction in clothes that keep their shape and always look well.

Our suits speak for themselves—look well, wear well and are the cheapest to buy.
